**Gloria – sprayers for the home and garden**

The Gloria range of household and garden sprayers and the Streuboy garden spreader, are being launched to the gardening public at BBC Gardeners' World Live at Birmingham NEC (10-14 June 2009).

Nottingham based Henton & Chattell, the nationwide garden machinery distributor, have been appointed to distribute the range which sits nicely alongside the Brill range of garden machinery. Henton & Chattell have been solely distributing Brill since September 2009.

Gloria was acquired by Brill Gartengeräte GmbH on the 1st January 2005. In addition to the Brill brand, which covers the grass care and garden trimming sector, the new parent company now offers the Gloria brand covering plant care and shredders. Both brands represent good quality and experience within the marketplace. The amalgamation has produced a wide range of diverse garden care equipment and aid products.

Market leaders in the sprayer market, specialising in equipment sold by garden centres, specialised dealers and DIY stores, the Gloria product range covers household and garden sprayers through to high performance equipment for commercial applications. Other garden care products include the Streuboy spreader ideal for fertiliser, sand and seeds.

The Prima 5 is the best-selling sprayer from the Gloria range of plant care products. With a 5 litre capacity and a maximum operating pressure of 3 bar, great spraying results can easily be achieved. The model is fitted with a piston pressure gauge as well as an integrated safety valve. The Prima 5 is practical to use and very economical. Ideally suited for small and medium sized gardens, it offers excellent value for money.

Gloria Piston Knapsack Sprayers offer a great range of large capacity, up to 18 litres, high pressure sprayers. Complete with quick tightening padded shoulder straps and integrated back rest, the knapsack sprayers are comfortable to wear when working.

The range is ideally suited for use in vineyards, large gardens, greenhouses and forestry applications.

The Gloria range can be purchased through Henton & Chattell's dealer network they support. For more details about the product, log onto [www.gloriagarten.de](http://www.gloriagarten.de). To find a local dealer call 0115 986 6646 or log onto [www.brillgarden.co.uk](http://www.brillgarden.co.uk)
