

Windows Vista

If you are running the new Windows Vista operating system then please follow the instructions below **before** installing HC QuickView 2.0

Step 1

Close all programs currently open.

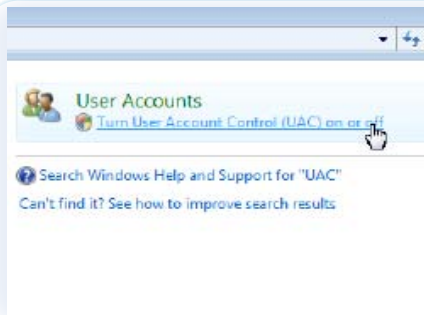

Step 2

Click on your **Start** menu, and click on **Control Panel**

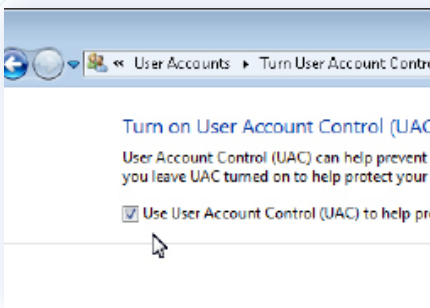

Step 3

In the Search option in the top right hand corner click in **UAC**

Step 4

Click on the Blue writing that says **'Turn User Account Control (UAC) on or off'**

Step 5

Take the tick out of the box click **ok**, then restart your computer.

You can then install HC QuickView 2.0

Any problems please call the QuickView support team on: 0115 964 5910
